* Replaces ESCO XHC Series Chain

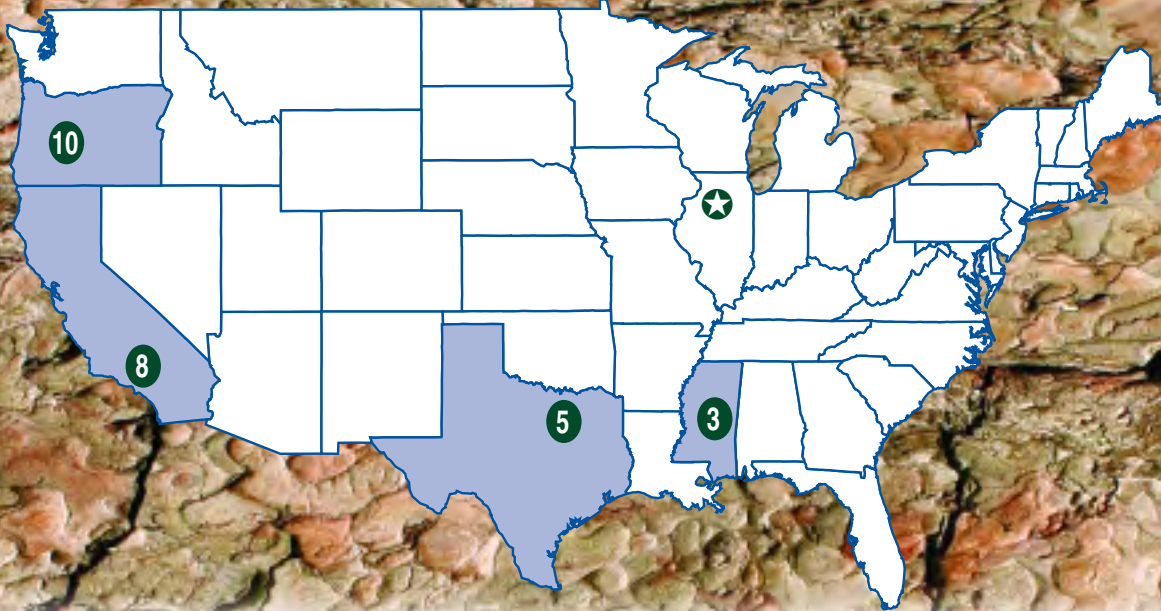

**THE
FABRICATED
ADVANTAGE**

- Chain Pin is uniform diameter over full length
- Offset style sidebar for more uniform wear plus allows single link removal for take-up
- Pins and Sidebars can be heat treated separately for required needs of each
- Sidebar holes more precise than casting, allowing for interference fit and longer life
- No cast parts that can become contaminated when poured
- Ability to offer upgrade to Induction Hardened Pin for longer wear life
